Furniture For Life

Catalogue 2023

WHO WE ARE

ANCA: Affordable design since 2003.

ANCA Ltd. is a wholesale company based in Hong Kong that believes in the use of durable design to produce stylish furniture, find clever solutions and innovate on a base of experience. This enables us to produce efficiently and helps us realize our attractive prices.

ANCA's furniture is produced in factories that belong to the best in their field. The newest machines, combined with real craftsmanship and a passion for the products they make. This is what in our opinion gives ANCA's furniture its attractive design and competitive prices.

In our furniture we make use of different wood decors and finishing techniques. All of our production methods and materials are environmentally friendly and energy saving. Examples of this are that our furniture is delivered unmounted in packages that take up the least space possible. This combined with fact that we often ship directly from factory to retail reduces our environmental footprint created by transport.

ANCA provides its customers with furniture that is simple to assemble with clear instructions. We provide our customers with furniture that complies with the latest and highest quality standards to ensure the safety of your child. In addition we incorporate many exciting new technical features such as Soft Close and our Grow Up system.

QUALITY

We are proud of a history full of certificates and acknowledgements to validate a manufacturing process always respectful with the environment, sustainable and eco-friendly.

ANCA has implemented strict quality standards that are checked constantly by our own Quality Control team. Moreover, before we start producing our new furniture, we have our Quality Assurance team set clear standards with regard to the technical quality.

SAFETY

To ensure product safety, all our furniture is designed and produced in strict compliance with the latest standards with regard to safety and the usage of the materials.

EN 716-1:2017+AC:2019 Cots and Folding cots for domestic use.

EN 1130:2019+AC:2020 Cribs

EN 12221:2008 +A1:2013 Changing units for domestic use.

EN 12227:2010 Playpens for domestic use.

EN 717:2004 Determination of Formaldehyde emission

EN 71-3:2020+A1:2021 Chemical requirement safety test.

ASTM F1169-19 Safety Standard for Full-Size Baby Cribs

AS/NZS 2172-2013 Cots for household use - Safety requirements

All boards used have E1 classification in content and emission of formaldehyde.

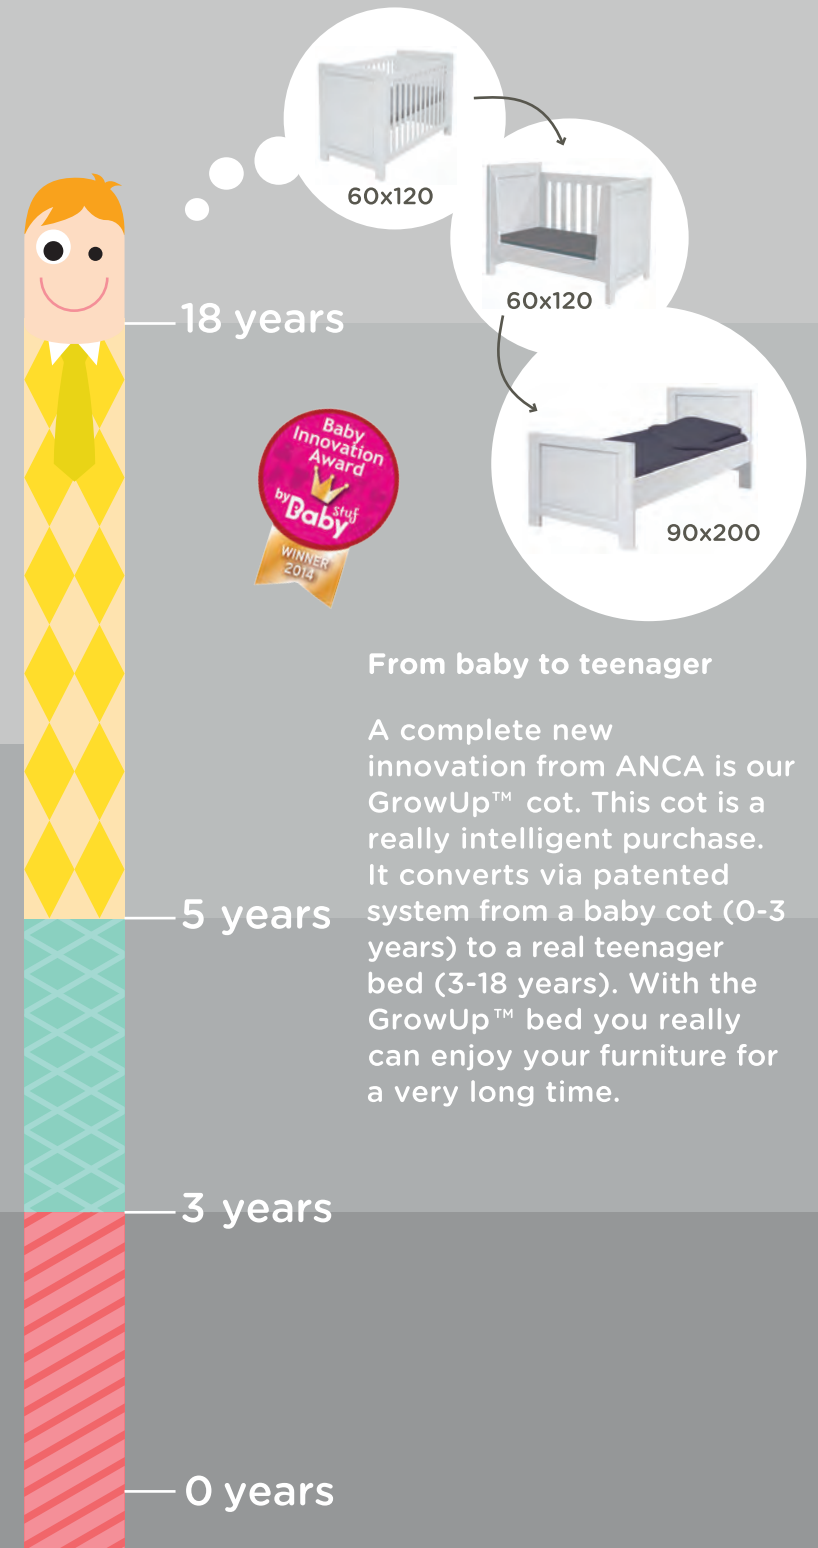

The certification and testing is carried out by SGS group and TÜV Rheinland, the world's leading inspection, verification, testing and certification companies.

DUTCH DESIGN

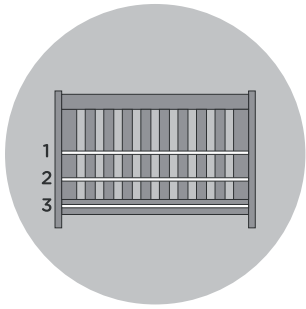

Our furniture is designed according to the latest possibilities and trends with a close eye on comfort and ease of use for both parents and babies. That is why for example we use soft closing glides and door hinges so your baby will not wake up when you close a door or drawer. Another example is our award winning “Grow up” bed that lets you enjoy your furniture for a long time.

Enjoy your nursery furniture for a long time!
